

American International School

Chennai, India

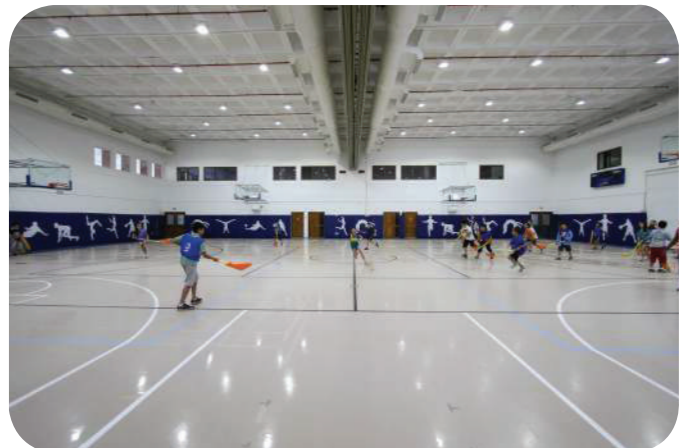

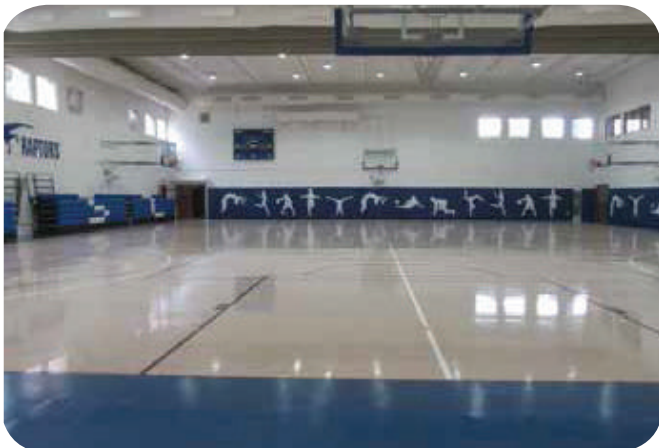

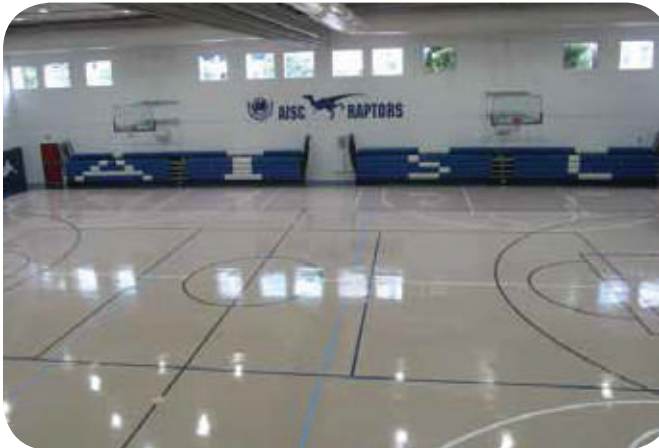

Indoor Multi-Use Gymnasium

Multi playing PU surface (basketball, volleyball, badminton and all indoor sports) along with telescopic bleachers.

Date of Project Completion: July 2014

Base Construction: Plain Cement Concrete
(self-leveling)

Surface: Infinity Performance

The client's vision for the project was to have a truly world-class 'arena' meant for training the best athletes and also to hone talent by providing an elite training-cum-recreational facility without compromising on their Middle and Senior School students' safety or comfort.

"We are immensely proud of this facility and impressed beyond words with the workmanship, high standards and the dedication of TigerTurf and Altius Sports to the project and to us and our mission", says Alankrit V Arora, Director of Business Affairs at AISC.

To say that this project has been transformative for the school will be an understatement. The gymnasium is now the crown jewel in the facility and a showcase for the high standards of the institution. It has brought in smiles,

cheers and a team spirit in the school and reenergized the sports and PE program.

The new facility has brought an Olympic-standard floor for basketball, volleyball & badminton and will now be the flagship arena in the South Asian International Schools' - Association (SAISA) region for hosting the above mentioned sports.

Our coatings and adhesives are based on renewable resources, not contributing to degradation of precious limited resources. All polyurethanes used in the Infinity systems are either 100% solids (no solvents) or water based thereby eliminating any potential release of hydrocarbons into the atmosphere.
