

Cricket Association of Bengal

Facility	Location	Surface/s	Base Construction	Date of Project completion
Outdoor cricket wicket with run-up	Kalyani Cricket Ground	Deluxe, TigerPlay	Plain Cement Concrete	April'2013
Outdoor cricket wicket	Jadavpur University Ground	Deluxe	Plain Cement Concrete	September'2011
Indoor cricket wicket	Eden Gardens	Deluxe	Plain Cement Concrete	August'2013
Boundary Grass	Eden Gardens	Summer Envy 35	Plain Cement Concrete	November'2011

Inaugurated by Sandip Patil and Dav Whatmore, two all-time cricketing greats, the Kalyani Cricket Ground has the best that synthetic turf has to offer. The synthetic cricket wicket is ideal for both ball bounce and turn for spin. Along with the cricket wicket, a synthetic run-up has also been installed so that practice in the nets can be relentless despite rain and other unfavourable ground conditions.

The facility at the Jadavpur University Ground uses the same turf as installed at the National Cricket Academy, Bangalore. It is hard wearing, all-weather and highly durable.

The double-tier indoor facility at Eden Gardens uses TigerTurf synthetic surfaces that are ideally suited for long-hour practice sessions. The wickets are ECB Certified.

What's more, the evergreen and lush "grass" in front of the players' dressing room at Eden Gardens, overlooking the field, is TigerTurf's Summer Envy 35- so natural that you can't tell (or feel) the difference!

TigerTurf cricket wickets – experience the best at a fraction of the cost.
