

# HIMACHAL PRADESH CRICKET ASSOCIATION

Dharamsala, Himachal Pradesh

**A project for indoor practice pitches**

**Date of project completion:** November, 2023

**Surface:** TigerTurf Premier & TigerTurf TigerTest (cricket pitch) and TigerTurf XP Pro 40 (cricket outfield)

**Base construction:** Plain cement concrete

Established in 1960 with the goal of fostering cricket within the state, the Himachal Pradesh Cricket Association (HPCA) had to wait 17 years before gaining affiliation from the BCCI. This recognition came about during a meeting in New Delhi on September 29, 1984. Until the turn of the millennium, the association was regarded as a peripheral figure in Indian cricket. However, it wasn't until the year 2000, that HPCA started to make its mark and earn acknowledgment. Naturally, when the time came to upgrade in 2023, TigerTurf was the obvious choice.

The TigerTurf cricket range includes English and Wales Cricket Board certified cricket pitches, including Cricket Australia certified outfield. To lend variety, we used our TigerTurf Premier and TigerTurf TigerTest for the pitches and our unique patented yarn with HR formulation, TigerTurf XP Pro, for the run-up. With 6 practice pitches, this is indeed a remarkable and inspiring facility.

TigerTurf Premier cricket surface is manufactured specifically for cricket pitches and installed for a wide range of playing situations – for match play, in the nets, indoor training facilities and to provide all-weather surface. TigerTurf TigerTest is perhaps the most versatile product in the turf industry and not only offers excellent bounce and swing but also encourages spin and helps enhance all-round skill and technique.

Our patented TigerTurf XP Pro turf is designed for high usage areas and provides excellent playability for all age groups which is also an ideal choice for the outfield. This system utilises our patented TenCate XP Blade+ yarn, which is the only yarn in the world sold with an unlimited play durability warranty and remains all footwear friendly (no metal spikes) at the same time. Furthermore, its heat resistant formulation ensures that it stays cooler than all other conventional yarns.

Here's to building bespoke cricketing infrastructure and we simply call it our love of the sport.
