This is yet another success story in Tripura, at Sudhanwa Debbarma Memorial High School, wherein we executed our third turnkey project for football. The project encompassed layout, design, construction (including pathway and fencing), supply and installation, all adhering to FIFA standards and norms.

Inaugurated by Dr. Manik Saha, Hon'ble Chief Minister of Tripura, and Sri Tinku Roy, Hon'ble Sports Minister, this project was seamlessly executed by Altius Sports. The rapid completion was made possible by having the entire sports infrastructure ecosystem in-house. From R&D to manufacturing, design to base construction, installation to maintenance – our entire team was integrated under the same roof!

TigerTurf's Championship 50 football turf boasts incredible wear resistance and a natural-looking appearance. Its improved TenCate fibres, based on a patented rhomboid shape, remain upright to ensure consistent playing performance.

When compressed, the fibers twist instead of bending, allowing them to bounce back upright even after extensive Lisport testing. This product delivers world-class performance with outstanding playability and exceptional resilience for high-utilization pitches.

Championship 50 is accredited to FIFA Quality and Quality Pro and is an all-weather surface. It is safe, soft and reliable and is designed to cater to the needs of the athletic community right up to the professional level.

For significantly more playing hours than natural grass, look no further than TigerTurf! Combined with the expertise of Altius Sports, and using TenCate yarn, you have a one-stop solution for all your sporting infrastructure needs, including maintenance and field lighting.

Here's to the love of the sport.
