Base Construction: Plain cement concrete along with peripheral drainage, nets, dividers and complete erection and installation of lighting system from Lumosa

The Indian Institute of Management Calcutta (IIMC) was established as the first national institute for Post-Graduate studies and Research in Management by the Government of India in November, 1961. Over the years, IIMC has grown into a mature institution with global reputation, imparting high quality education and creating the leaders of tomorrow. In further enhancing its reach in an ever changing business environment, the institute along, with its student council, wanted a world-class play facility, to develop both the body and mind.

Designed and conceptualized by Altius Sports, this premier facility now provides a unique playing opportunity to students and further inspires them to achieve fitness, enjoy team work and, at the same time Learn In Fun Environments.

TigerTurf Trophy comes in a range of vibrant colours and its technologically advanced backing provides extra strength to the turf and a greater tuft lock. The surface is extremely hardwearing, yet dense and cushioned at the same time. This versatile multi-purpose surface is ideal for a variety of sports including tennis,

hockey, basketball, handball, netball, badminton and futsal. The FIBA approved interlocking tiles come with the highest rating, portability and a warranty that extends to 10 years.

The innovative Lumosa LED lighting system is remotely controlled, gives instant light, with multiple light levels, with no light spill, longer life bulbs and lower operating costs. To top it all, this superior system can be run remotely by the management through a cleverly designed app that saves time and money. The bright white LED produces an even spread of light with a natural daylight effect, giving a safer, improved performance for fast-moving athletes.

In the words of Mrs. Runa Sarkar, Dean – Academics for IIMC “Good sports infrastructure attracts participation and in turn results. We have seen a high rise in the number of students indulging in sports activities after the multi court installation by Altius. The facility has now become the focal point of the institution where all the energies seem to converge. No wonder IIM Kolkata won the All India IIM Sports Meet.”
