

Jio Gardens

Bandra Kurla Complex (BKC), Mumbai, India

Multi Purpose Recreational Area

Manufacture & Installation of a multi purpose, "green & non-toxic" artificial turf field

Date of Project Completion: November 2014

Surface: 40 with TPE in-fill

Base Construction: Reinforced Cement Concrete with drainage tiles

A joint initiative between Reliance Industries Ltd (RIL) and the Mumbai Metropolitan Region Development Authority (MMRDA), the Jio Garden offers the best in terms of parking, recreation, community development and 4G-enabled services. The 141,000+ sq.ft. garden has perhaps the largest, multi purpose artificial turf in Asia.

Apart from the yarn being UV stabilized and bereft of lead and any heavy metals, the in-fill has been done using TPE (natural, virgin rubber) and not the conventional SBR (black rubber). This not only gives the field a natural, green look, but also absorbs less heat and is bereft of smell. All this adds up to turf that provides excellent playability for all age groups.

The Endurance 40 artificial turf is multi purpose not just for sports, but also ideal for recreational activities and can withstand various all kinds of footwear as well as heavy usage. It is easy to maintain, lush and green all-year through and great in player comfort and safety.

The inauguration of this grand facility took place in the presence of the Hon'ble Chief Minister of Maharashtra, Mr Devendra Fadnavis, Chairman of Reliance Industries Limited, Mr Mukesh Ambani and a host of Bollywood & Sports celebrities such as superstar Mr Amitabh Bachchan and cricket great Mr Sachin Tendulkar.

Speaking at the inauguration, Nita Ambani, the Founder and Chairperson of Reliance Foundation said: "Jio Garden is an example of our commitment to creating world-class, multi-purpose and technology-enabled public spaces for a fast growing India. It also resonates with every Mumbaikar's dream of living in a sophisticated, digitally-enabled city that is still in touch with its beautiful physical roots."
